Donald J. MacNeil Nominated for Rocky Mountain

Provincial Leader Howson Commends Convention's Choice—"Second Largest Industry in Province Deserves Vigorous Representation" is Statement of Enthusiastic New Liberal Candidate

Donald J. MacNeil, 32 years, was chosen by Rocky Mountain provincial constituency convention as Liberal candidate and made his initial public appearance at a public meeting last Thursday at which W. R. Howson, K.C., was the principal speaker.

The Liberal leader on his first political address in the Crow's Nest Pass stated he hoped to bring something better to the coal mining population and hoped that on his next visit he would be able to record that the Liberal party had done something worth while for the second largest industry in Alberta.

He commended the convention for selecting a young man to represent the coal industry, as he knew that the industry and the workers would gain much more forceful representation than it had in previous years. The great need of the people in the Crow's Nest area was more tonnage and it required someone in the Legislature to impress on members the importance of the coal industry to the province. Mr. MacNeil would be actuated by motives of service to the coal industry, and would make a capable representative. Greater expansion of coal markets would bring steadier work for the mining population and increased work for railway workers.

Rocky Mountain constituency was the largest revenue producer among the provincial constituencies, and required aggressive representation, in fact deserved it when it paid a very large sum in taxes and royalties on coal.

Mr. Howson emphasized the prominent place the Liberals placed in their policy for the advancement of opportunities for the youth of the province. There was nothing more important than the welfare of the young people, and special consideration was given them in framing the Liberal policy for Alberta.

Lethbridge, as well as other important points in Alberta, had been a gathering point some time ago, when a conference of representatives of every industry and interest was open to receive suggestions and on which the Liberal policy was based. This policy represented the best thought of the people of the province.

The interests of industry had never been adequately placed before the Legislature, and as head of the provincial Liberal party he had written to every mine owner asking for suggestions towards improvement of the coal industry. Other industries had received equal consideration. It was his intention to set up a Department of Industry and Labor to work out the problems of each; to encourage all existing and new industries, and to develop our natural resources for the benefit of the people and not for monopolies.

Prominent in the activities of the Liberal party would be the finding and establishing of markets for the

Donald J. MacNeil

product of all Alberta industries, to investigate the excessive cost of gasoline, oil, farm machinery and other goods and commodities; to revise the Workmen's Compensation Act to insure the injured workman his just claims; to deal with unemployment relief, insurance and kindred matters relating to industry and labor.

He cited the increase in public debt from \$4,900,000 in 1930 to \$7,134,000 in 1935, increasing debt charges requiring over 50 per cent of the provincial revenue to meet interest charges. As a result school grants, mothers' allowances and other grants were curtailed in an effort to balance the budget. We must either have a new deal or drift into bankruptcy.

Dealing with Social Credit, the speaker found several system advocated, making promises which could never be fulfilled. People were asked to support a policy represented by nothing more than a blank piece of paper, and were told to simply have faith and expecta would work out the rest. If Social Creditors were so sure of their policy working, why did they not print it so that all could understand it? To ask people to take a leap in the dark and be led into a blind alley with faith that they would come out into the light was not good enough for the people.

"Let us be sure that as we travel the road of reform that we are on the road towards sanity and to make it a better province for the young people," urged the speaker. Whatever is practical in improving conditions the Liberals would support, and whatever changes in our monetary system were necessary, progress would be made step by step instead of incanting revolutionary theories which could never materialize.

The candidate, Donald J. MacNeil, born in 1903 in Nova Scotia, has the degree of Bachelor of Science from St. Francis Xavier University, N.S., also Doctor of Philosophy degree in Geology from Princeton University, N.J. He worked on the Geological Survey of Canada in Nova Scotia and Alberta coal fields, and is now engaged in geological consulting work in the Crow's Nest area, being at present with the International and McGillivray companies. He married Miss Eileen Jones of Hillcrest, Alta.

President of the constituency association is A. M. Morrison of Coleman, and C. J. Tompkins of Blairmore is secretary. The committee includes representatives from polling subdivisions in the southern part of the riding.

LIBERAL CONSTITUENCY ORGANIZATION

The following were appointed at the Rocky Mountain riding convention in the Community hall on Thursday, June 13:

Honorary president, W. R. Howson, K.C.; honorary vice-president, Capt. W. A. Beebe, also George Killoch; president, A. M. Morrison; vice-president, J. R. Brewster, Banff; secretary, C. J. Tompkins; committee, H. C. McBurney, C. Tompkins, A. Goyette (Frank), Percy Salt, Hillcrest; J. E. Lamey, Bellevue; Passburg and Burmis, Mr. Miller; and M. Luszich, representing the district west of Coleman.

Politics and Evangelism

In his broadcast on Sunday William Aberhart denounced anonymous writers of vitriolic letters he had received. Such people were cowards, he stated. Another correspondent questioned the number of people present at Bible Institute services as given out by Mr. Aberhart. Owing to this, he stated on Sunday he had better not say how many were present. The incident arose out of the previous Sunday's attendance, which Mr. Aberhart stated was 900 and the correspondent said it was only 250. Aberhart said he was sorry for that type of mind. Evangelist Charles Neighbor is now co-operating with Mr. Aberhart, giving color and noise to the Sunday afternoon broadcasts. He finds Alberta so receptive to his evangelism that he proposes to bring "Daddy" Neighbor too, and with Mr. Aberhart make a soul-sweeping campaign.

Sunday afternoon radio listeners derive entertainment from these vigorous speakers.

Tenth Anniversary United Church Inspiring Service

The anniversary of the United churches of Bellevue, Hillcrest, Blairmore and Coleman, commemorating ten years of church union in Canada, was observed by an inspiring service in Coleman community hall on Sunday last, the Rev. A. K. McMinn of Lethbridge being the special speaker. He gave an address based on the ten years of church progress under union.

On the stage with him were Rev. Roy Taylor, Rev. A. E. Larke, Rev. John Wood, and Rev. R. Upton. The special choir under direction of Mrs. R. Upton, A. T. C. M., added greatly to the musical part of the service, and many from the Pass towns attended.

Extortion Plot Unearthed at Blairmore---Town Constable Charged

Blairmore's town constable Joe Fitzpatrick, has been arrested and released on \$2,000 bail on a charge of extortion, and a woman of the town is facing a similar charge.

It is alleged that Fitzpatrick visited a certain house on what is locally known as "Hill 60" and there found a man in company with a woman, Leona. He told the man it would cost him something to get out of it, and under threat of exposure the man subsequently, at his own home, handed over to Fitzpatrick two cheques amounting to over \$1,000, it is alleged.

Also it is stated that Mayor William Knight accompanied Fitzpatrick to the house where the cheques were handed over. The woman in the case at a later date tried in various places to cash one of the cheques, and Coleman postmaster was asked to cash a cheque for \$750. To other postmasters in Pass towns similar requests were made, without success, also it is alleged, a well-known store was requested to cash a cheque. The victim of the extortion

Coleman Boy Scouts Association Re-Organized

Enthusiastic Meeting Last Evening Appoints New Officers—A. L. McLintock is

A group of sixteen interested men and women met last evening in St. Alban's parish hall and appointed a new slate of officers to promote activity in the Boy Scouts of Coleman. "Owing to lack of time a detailed report is held over till next week, but an item of keen interest to Scouts of Coleman and other Pass towns is the proposal to organize a district camp at McBain's Lake, B. C. to be held following the Girl Guides camp which is being held from July 3 to 13.

The game between Coleman and Hillcrest which was to have been played on the local diamond, Sunday, was cancelled owing to wet weather.

frame-up this week laid a complaint, backing up his statements by affidavit before a local commissioner, and the trial is to be heard before Magistrate Gresham at Blairmore, the prosecution being conducted by the R.C.M.P.

Mayor Knight was not present at Monday's meeting when Fitzpatrick was suspended. The latter was appointed town constable following the election of what is termed the Workers Council two or three years ago. Creating quite a stir, the sordid details of the case will be aired in the police magistrate's court Friday morning, quite a number of witnesses having been summoned.

Council Discuss Sidewalks Extension West Coleman

At Tuesday night's meeting building of sidewalks from the Empire hotel corner to the west end of West Coleman, on Second street from the cottage schools to the west end of Second street, and from the school corner on Third street eastward, was proposed, and the estimated expenditure is expected to be around \$1,000.

Plank curbing with a filling of gravel and coating of the same material as used on Main street road surfacing will be used.

School Teachers Contracts Renewed

Renewal contracts to the staff of eighteen teachers have been issued by the board, four of which are high school, and fourteen public school teachers. Of the public school, seven hold first-class teaching certificates, and seven hold second-class. Two years ago the trustees suggested that all teachers except those specialising in Primary classes should obtain first-class certificates, it being left to the teachers to qualify for same.

"Fore!"

Ye Editor played his annual game of golf yesterday, and after losing half a dozen balls, called it a day till next year, about the same time. Its a gr-r-r and game, to cultivate an expletive vocabulary. Like tomatoes or olives, a liking for the game has to be cultivated. Our partner played with a red ball, but it was just as difficult to keep track of as the white balls. It too was lost.

Fraser McLeod of Lethbridge visited his parents, Mr. and Mrs. A. W. H. McLeod, during the week.

Girl Guides and Rangers Plan for Annual Camp

General Committee of Pass Towns Discuss Arrangements for McBain's Lake Camp July 3 to 13

The Crow's Nest Pass Association of Girl Guides held a meeting in Bellevue on May 28, with an attendance of 38. The result of a survey of the district indicated there were 156 Guides and Rangers eligible to attend the annual camp at McBain's Lake, B. C.

A committee including a representative from each town was appointed, as follows: Mrs. Carswell, Lundbreck; Mrs. E. C. Costick, Bellevue; Mrs. Adlam, Hillcrest; Mrs. M. Rhynas, Blairmore, and Mrs. R. P. Borden, district commissioner, Coleman.

This committee met on June 14 at Bellevue and decided to organize one camp for the district, to be held from July 3 to 13. Owing to the recent epidemic of measles, it was ruled that those attending camp must have a certificate that they have either had measles or had not been exposed to the complaint. The co-operation of parents is specially desired in this regard.

The committee in each town agreed to arrange transportation and the companies will leave at 10 a. m. on July 3, the various companies assembling here before that hour.

Mrs. F. M. Bird of Calgary, will be here over the week-end to hold a training camp for Girl Guide leaders. The camp will be at Knowles ranch, Boy Scout camp site.

Vacation Days

That happy period in childhood, the mid-summer school holidays, is near at hand. With shouts of joy, laughter, and on running feet the boys and girls of Canada will announce to all the world "School's out," and they will lose their books aside to be forgotten for a couple of months.

In these later days much is heard of shorter working hours, more leisure for the workers of the world, and all kinds of proposals are advanced as to how those leisure hours may be spent in order that they may prove a blessing rather than a drawback in the development of a better type of citizen; in order that they may add to the pleasure and true enjoyment of life rather than tend towards pure idleness and even shiftlessness.

Now, with two months of absence from school for their children, what are Canadian parents planning for these energetic boys and girls, to keep them out of mischief and to make this vacation time freed from study wholly beneficial and an asset which will prove of value in better health, clearer minds, and a most wholesome outlook on life.—In a word, prepare these citizens of the future to return to the school rooms some weeks hence keen for another period of study and preparation for life?

Older boys and girls are already home from college, annual church conferences and assemblies have been held, nurses' graduation from hospitals are completed, examinations of all kinds are nearing an end, teachers, too, will be free of their duties, spring work on the farm is past, and in town and city the quiet time in business is at hand. Thus the older generation is able to devote more time and more thought to making these happy days of childhood a real joy and blessing not only to the children but to themselves.

And so the question arises, and ought to be faced, what can we do individually and collectively to make the summer vacation of 1935 a never-to-be-forgotten period in the lives and memories of Canada's boys and girls,—your own boys and girls? It is a responsibility to be discharged, just as it is a pleasure to be derived by those who discharge the responsibility. And this combined responsibility and pleasure for parents, and unalloyed pleasure for children, should be regarded as a duty, especially, following, as it does, so many years of economic depression and, for many in this western country, disastrous crop failures and business reverses.

Fortunately, it does not cost much in money to give children a good time, a happy holiday. Fortunately, again, Canada is blessed by Nature with almost innumerable beauty spots for holiday purposes. There is not a province in Canada which does not abound in lakes, large and small; summer resorts and camping grounds are numerous, places to camp and picnic are to be found in easily accessible places. Full advantage should be taken of these to provide outings for the boys and girls, even though individual circumstances may make such outings of brief duration.

In summer time especially Canada is a land for out-of-doors. Get the boys and girls out into the open, and keep them there as much as possible. They are in school rooms and shut up in houses in the winter time for long months of the year; they need the health-giving properties of the sun throughout the summer holiday season, the clean, invigorating fresh air, the delights of forest and lake. Get them as close as possible to Nature in her happiest moods and most beautiful dress.

And make these vacation days of lasting benefit in other ways. See that the boys and girls are taught to swim. It is little less than a crime that so many Canadian boys and girls never learn to swim, and so many tragedies result, which are so easily preventable. The art of swimming should be a part of every child's education. It is not only one of the best forms of exercise, making for the development of muscle; it is not only a source of great pleasure; but it is a preparation for emergencies that may arise in their own lives or in the lives of others.

Unconsciously, too, the work of the school room can be carried forward. Powers of observation can be developed and strengthened during vacation days spent in the open; habits of cleanliness, neatness, orderliness, can be made a part of camp and holiday life, and accepted as part of the fun, which will stand children in good stead in future years; initiative, ideas in handicrafts, resort to simple invention to meet the lack of usual equipment at home—all these things mean a greater all-round development of character.

An elaborately organized holiday is not necessary, neither should much expense be entailed. Get out with the children and rough it for a while. They will enjoy it just as much, perhaps more, than an expensive trip or outing where everything is planned and arranged for them. To a large extent, the boys and girls should do a full share of the camp or holiday work. Properly organized and time systematically divided between these duties and the hours of play, boys and girls will enjoy and benefit from doing the camp chores.

Forget the motor car occasionally, and spend a day on a hike. Older lands know the delights and benefits of a walking tour, or a day's hike, which Canadians have not learned to appreciate. Try one this year with your older boys and girls.

Think up other things and ways in which this holiday season can be made happy, healthful and useful. Vacation days present an opportunity to get closer to your children than is possible in the busier days of the year. It is an opportunity for you to study them; ascertain their weaknesses, or strengths; gain their confidence in larger measure; learn of their ambitions, and as a result be in a better position to mold their characters along right lines, and check tendencies and habits, hitherto un-noted by you, which would prove a handicap to them, and a possible source of future worry and sorrow to yourself as well as to them.

Problem For Astronomers
Mars, where weather extremes are almost an hourly matter and life-giving oxygen is virtually non-existent, has presented a new problem to the astronomers of this world by producing what seems to be snow out of season.

Pupils in the middle grade of schools in China have been ordered to take military training.

The wife of a small farmer sold her surplus butter to a grocer in a nearby town. On one occasion the grocer said: "Your butter was underweight last week."

"Now, fancy that," said Mrs. Farmer. "Baby mislaid my weight that day, so I just used the pound of sugar you sold me."

Nearly every military term is French.

Lloyd's Insure Vimy Pilgrimage

Stress Necessity Of Making Early Bookings

The Canadian Legion announced to-day that Lloyd's of London, England, have insured the Vimy Pilgrimage, to be held in July of next year, against abandonment in the event of war, financial panic or other untoward events.

Bookings are pouring into the steamship companies. Hope is expressed by Legion officials that service men realize the necessity of registering early in order to be certain of accommodation.

"It is difficult to impress a veteran with the idea of making a ten dollar deposit now when he knows he can pay the full hundred and sixty dollars when the time comes," said Captain Ben Allen, Dominion organizer, to the press to-day.

"Early bookings are necessary, however, so that we can get enough ships to take care of the thousands who intend going." "And Pilgrims only are going to be allowed to sail in this Peace Armada. Also we must arrange early for billeting accommodation, and rail and motor transportation in France. The naval, military and civil authorities in France, Belgium and England are extending us every co-operation. It looks like Canada's year in Europe next year."

Held Up By Robin

Nesting Bird Delays Altering Of Hurd C.N.R. Sign

Plans to alter a huge electric sign fronting the Canadian National station in Winnipeg were thwarted out of consideration for a mother robin whose nest is attached to the letter "r".

Wordings of a new sign designed to replace the old had been carefully worked out. Electricians were summoned and all was in readiness to flash out the attractions of summer excursions. Then office workers who had seen the bird sitting on her four eggs reported to officials, and it was decided, excursions or no excursions, Mrs. Robin must not be disturbed. Meantime efforts were being made to work out a sign which would leave the "r" in its present position.

Latest Life-Saving Net

Device For Use At Sea Was Successfully Tested

An ingenious life-saving net which experts state will minimize perils of the sea has been demonstrated at Cardiff.

The invention is a raft consisting of tubular cork bags made into a net lashed with rope. It is produced by a Cardiff ship-repairing firm.

It can be unrolled down a ship's side to serve as a ladder, or floated alongside foundering or burning vessels in conditions which would make the launching of an ordinary lifeboat impossible.

Orders have been received from liner and "tramp" firms. The device is expected to form the basis of a new industry.

Marriage In Finland

Canadian Bronco Buster Reported To Have Wed Daughter Of Tom Mix

Ruth Mix, daughter of Tom Mix, and Harry Knight, champion Canadian bronco buster, eloped to Reno, Nev., where they were married, laid a telegram from Knight received at Hollywood by Tex Austin, promoter of cowboys contests.

"We tied the knot to-day," read the message. Miss Mix, whose father is famous for cowboy roles on the screen, formerly was married to Douglas Gilmore, an actor. Their marriage was annulled at Middleton, N.Y., in July, 1932.

Knight's home is at Banff, Alta.

New Story For Ripley

Here's one for Ripley, "Believe It Or Not," but it's a fact anyway. A. W. Youngblood, of Oxford County, Ont., found a large potato with others in his cellar that had started to sprout. Nothing unusual in that, but the sprout had turned around and gone into the potato again near the surface, coming out at the other end, extending for about two inches.

A Full-Time Job

What are the functions of a lieutenant-governor? asks a constitutional writer. In Manitoba, says the Winnipeg Tribune, the duties start early. Sundays included somewhere around 8 a.m., and last frequently until the clock turns to a.m. of the following day. Not more than a thousand organizations of one kind and another have their eye on the governor as a prospective guest at one or more events.

Butterfly Hunter

Man To Travel 4,000 Miles To Pursue Life-Long Hobby

At the age of 73 Walter Dannatt, a retired business man of London, will leave shortly to travel a thousand miles up the Amazon in pursuit of his lifelong hobby of butterfly collecting.

Mr. Dannatt has a remarkable collection of butterflies and moths, numbering more than 18,000, and he hopes to add to it considerably as the result of his new venture.

"I keep fit by cycling," Mr. Dannatt added. "I have had the same machine for 30 years, and have traveled more than 150,000 miles on it. One week-end I covered more than a hundred miles."

"Before I bought my present machine I had the first safety bicycle in the country."

On the subject of his hobby, Mr. Dannatt said: "Some of my specimens come from as far as the Solomon Islands. The collector who secured them was repeatedly driven off by cannibals in attempting to land. He at last succeeded by brandishing a revolver."

Boosting Bay Route

First Vessel To Be Chartered For 1935 Season Is The Ashworth Of The Dalgleish Line

Announcing the Ashworth of the Dalgleish line is the first vessel to be chartered for the 1935 season, Brig-Gen On-to-the-Bay Association, at the Hudson Bay Association, at Winnipeg, forecast a record year for grain exports over the Hudson Bay route.

More ships would visit Churchill, Manitoba's northern seaport, this season than any season previously. General Patterson said that from the numerous inquiries received from persons in different countries, General Patterson said many tourists would visit the port this year.

The Ashworth will leave England in time for the official opening of the Hudson straits and is expected to dock at Churchill shortly after the opening date, August 10. The Ashworth will bring cargo to Churchill from Newcastle, Antwerp and Liverpool.

Royal Military College

List Of Western Graduates, And Those Receiving Diplomas

Corporal Ian Mondelet Drum, Victoria, B.C., graduated from Royal Military College with honors.

Other Western cadets who graduated are: Cadet Gordon Peck, all-star, Regina; Cadet Edward Maurice Hodson, Rosthern, Sask.; C.S.M. John Alexander Hornbrook, Calgary; Cadet John Despard, Victoria; Cadet Murray Duncan Blair, Calgary; Corporal Ronald Edward Wilkins, Penitence, B.C.; Cadet George Rose Davidson, Custer, Alta.; Sergt. Robert Summers Stronach, Calgary; Cadet John Henry Desmond Barrett, Victoria.

The following will be awarded diplomas after satisfactorily passing supplementary examinations: Cadet Thomas Alfred McPherson, Victoria; Corporal William Carroll Patterson, Calgary.

For Anglo-American Amity

Eight Thousand Former Residents Of British Empire Hold Gathering At Los Angeles

Upwards of 8,000 former residents of the British Empire, enough to make a small city, plinked at Los Angeles, California, in observance of the silver jubilee of King George.

The outdoor luncheon grounds of Lincoln park saw a gathering of people from all parts of the empire.

Francis E. Evans, British consul and guest of honor, pleaded for Anglo-American amity and declared that at such a season of English rejoicing international ties should be even closer between former British subjects here and abroad. John Tappan, vice-president of the Sons of St. George, was another guest of honor.

Started Apple Industry

On tiny Belle Isle near Annapolis Royal, Nova Scotia, Pierre Martin planted several small trees 30 years ago, which he had brought to the new world with him from Normandy, in this small plantation, the famous Annapolis valley apple industry arose.

Alice Brooks Patterns

An Announcement Of Interest To Women Who Knit

Women are busy these days plying their knitting and crochet needles turning out beautiful articles that give honor to their Grandmothers' craft. Wherever you go to test parties, bridge games or social gatherings—you see women wearing knitted suits, sweaters, dresses, and accessories that are paragons of elegance and good taste. They created them with their own hands in their spare time, they will tell you; and you ask yourself why you cannot do the same. You can. And you will save so much money, to say nothing of affording a pleasant pastime. We are very happy to announce that we can offer the Alice Brooks Needlecraft Service to our women readers. A service exclusively of interest to women with artistic tastes. And what woman has not a taste for the dainty and artistic?

Dame Fashion declares that accessories should match. In line with this ultimatum, our new service will offer matching hats and purses, gloves that can be crocheted to match the "best" dress, flattering up-to-the-minute sweaters with matching skirts, sweater coats for sunlight and starlight. Charming two-piece knitted suits with exquisite detail and clever hand-finished touches that will make you the envy of all your friends.

Miss Brooks, creator of this service, also will provide designs for the needleworker. Quilt patterns in such lovely designs as Spring Fancy, Cleopatra's Fan, Rainbow Square, Friendship Fan, luncheon cloths that will make your table fit for a king, tea towels to dress up your kitchen. Everything imaginable for the home beautiful is included.

Alice Brooks patterns are clear, detailed and easy to follow. The precision with which each pattern is designed—the materials and color schemes suggested—the helpful instructions on finishing—all aid in the completion of satisfying work.

We have inaugurated this helpful service so that you may order simple, fashionable new patterns directly from your home. Patterns cost only twenty cents each.

Girl's Ruse Fools Thief

Recovers Jewel From Robber By Clever Trick

A young woman in Shanghai, China, who refused to be alarmed when she snatched a pearl earring valued at \$1,000 from her ear recovered the jewel by a ruse as clever as it was daring. As he started to run away, the woman reached for the other earring and called to him: "Here," she cried, "you might just as well take the other one. I only paid \$250 for them." The robber, hurrying to be in of it, and all other women who were imitating jewelry, tossed the earring he had snatched into the street and left.

Tuberculosis Seals

Receipts Twelve Per Cent. Higher Than In 1933

Receipts from the Christmas sale of the Canadian Tuberculosis Association were 12 per cent. higher in 1934 than in 1933. It was reported to an association meeting at Toronto, St. Catharines, New Brunswick, Montreal and Hamilton had notable increases.

Research awards to junior staff members in Canadian sanatoria and clinics, for 1934, follow: Dr. C. F. Bennett, Fort San, Sask.; Dr. A. R. Boyd, Vancouver.

Little Journeys In Science

BROMINE

(By Gordon H. Guesst, M.A.)

Bromine was discovered about a century ago by the French scientist Balard. The element occurs in nature as bromides, chiefly as magnesium bromide and sodium bromide, which are found in many springs and salt deposits. The Staatsfurt deposits in Germany and the salt waters of Michigan and Ohio are richest in bromides. Sea water also contains small amounts of bromides.

Bromine is prepared commercially by the electrolysis of a solution of a bromide or by treating solutions of bromides with the more active element chlorine.

In recent years the demand for bromine has greatly increased, due to its use in the preparation of a compound called ethylene bromide. This compound is a constituent of ethyl gasoline. An effort is being made at the present time by scientists to obtain additional supplies of bromine from the bromides in sea water. Sea water contains about seventy parts of bromine in a million of water, which means that about 2,000 gallons of water must be treated to secure a pound of bromine. To recover bromine from sea-water, a ship equipped capable of recovering 100,000 pounds of the element per month. It has been reported that the trial trip of this vessel was quite successful, and as a result of this rather large size experiment a plant has been built on the Atlantic coast for the extraction of bromine from the ocean. The success of this venture has suggested the possibility of extracting gold from sea water in a similar way.

Bromine is a dark-red fuming liquid with a very disagreeable odor. Bromine vapor attacks the eyes very painfully and produces great irritation when inhaled. It is about three times as heavy as water and is moderately soluble in water.

Bromides are compounds produced when bromine combines with other elements. Those of potassium and sodium are used in medicine as sedatives and in the preparation of silver bromide, which is used extensively in photography.

The sensitive material on the plate. Bromine is also used in the preparation of important dyes. Considerable quantities of bromine are used in the manufacture of tear-gases, or lacrymators.

A Clanny Court

"The Campbells are comin'" was a fitting song in Cobourg, Ont., the other day, says the Toronto Star Weekly. The Campbell police on court is held in Cobourg, and the bench was Magistrate W. A. Campbell, the accused was Thomas Campbell, and the police officer who laid the charge was D. Campbell of Campbellford.

PAINFUL JOINTS

often are a warning that your kidneys have become deranged and need attention. Don't suffer needlessly. Take Dr. Williams' Pink Pills to obtain relief while assisting your kidneys to function properly.

A HANDY POCKET TREAT

SWEETENS THE BREATH!

Prorogation Of House May Not Come Before First Of July

Ottawa.—Much of the reform legislation, a half dozen bills arising from the report of the price spreads commission and other government and private measures, many of them of highest importance, crowd the order paper of the House of Commons as parliament enters its sixth month Monday. Prorogation before July 1, which had been strongly forecast, would require extraordinary speed in the dispatch of business.

Up to the present no move has been made to lengthen the daily sessions or to disregard the Wednesday evening and Saturday recess.

Last week witnessed probably the most sensational passages in the House of Commons since the session opened, with Premier McPhail, E. B. Bennett, apparently fully recovered from his illness, delivering two speeches with all his old-time fire and eloquence.

To climax the week's activities came the bill amending the Dominion Elections Act, inaugurating the

single alternative voting system for federal elections in the province of Saskatchewan alone.

Introduction of this bill by Hon. Hugh Guthrie, minister of justice, apparently a complete surprise to everyone, brought a storm of protest from the Liberal opposition. Cries of "You'll never get away with that," and "We'll be here all summer," greeted the minister's brief explanation of the bill.

A new committee will be set in motion this week, a select body of nine members of the commons to study the bill to establish a Dominion grain board. It was on this measure Mr. Bennett delivered his first major speeches since his illness, moving and closing the debate on second reading. While Liberal members of the opposition hotly criticized the manner in which the governments had dealt with wheat operations in the past five years they did not oppose the principles of the bill and there were no divisions on first and second readings.

Divorce Applications

Would Have Committee Of Both Houses To Hear Cases

Ottawa.—Suggestion for establishment of a joint committee of both houses of parliament to hear divorce applications found favor from both sides of the senate chamber. A divorce committee functions for the upper house under Senator Lendrum McMeens (Cons., Winnipeg), hears witnesses and reports on its findings. The commons is without a divorce committee, but sends these bills to its private bills committee after they are passed by the senate.

Alberta Coal Probe

Edmonton, Alta.—Sir Montague Barlow, P.C., K.B.E., former minister of labor in Great Britain, will be chairman of the royal commission to investigate the Alberta coal situation, according to announcement by acting Premier Hoadley. He will arrive here in September to commence the inquiry.

Friendly To Japan

Tokyo.—A bloc of four provinces in northern China opposed to and independent of the Chinese Nationalist government and friendly to Japan and Manchoukou is a possible aftermath to the establishment of Japanese influence in Hopei province, said a Rengo (Japanese) news agency from Peiping.

Reject Bill To Amend Industrial Disputes Investigation Act

Ottawa.—The senate banking and commerce committee rejected the bill to amend the Industrial Disputes Investigation Act arising out of the report of the price spreads commission.

Motion for rejection of the measure was carried without division. It set out that "the committee report the bill to the senate with a recommendation that it be not further proceeded with for the reason that in the opinion of the committee its passage would not be in the public interest and would interfere with the spirit and purpose of the Industrial Disputes Investigation Act which is to prevent by conciliatory methods industrial disputes or breach of the peace."

Rt. Hon. Arthur Meighen, senate leader, said he agreed with President Tom Moore, of the Trades and Labor Congress, that "there is nothing in the bill worth saving."

The measure, Mr. Meighen said, attempted to provide even where there was no cause to fear a strike or lockout that the minister of labor might appoint a board of conciliation on complaint of an individual employer or worker of intimidation or discrimination.

The proposal was to try to effect a settlement of a dispute of that character "not of a dispute threatening a strike or lockout but more probably a difficulty between one section of labor and another or between one employee and another." In effect, the amendment proposed

To Find Remedy

Difficulties Of Unemployment Among Ex-Servicemen To Receive Attention

Ottawa.—Hope that members of parliament will, by mutual arrangement, be able to take steps to remedy the more outstanding difficulties of unemployment among ex-servicemen at the present session is expressed in a circular letter sent out to branches of the Canadian Legion by the Dominion command here. The hope is further voiced proper provision might thus be made for the development of plans with a view to early action next session by a parliamentary committee.

Quebec Lumber

Montreal.—The Quebec forest commission is determined to increase export of province of Quebec lumber. L. A. Daigle, chairman of the commission, said here. Mr. Daigle said the commission is handicapped by "certain influences which militate against a more general use of Quebec timber."

B.C. Road Work Planned

Victoria.—The British Columbia government will provide \$1,500,000 for road work in the province and \$500,000 to loan to centres where unemployment is most severe for needed work, the money to be raised by bond issue, Premier T. D. Pattullo announced in a statement.

boards might be set up to deal with disputes more or less of a local or domestic character, within the realm of provincial jurisdiction over civil rights.

"The committee felt," he continued, "that to invite a reference of disputes of that kind to a minister and thus to impose on him almost a direction to appoint a board, unless he give adequate reasons to the contrary, not only would throw upon him an unnecessary burden, but would place a weapon in the hands of an employer desirous of preventing what he regarded as discrimination by workers, or in the hands of a worker who thought he had been discriminated against by a labor organization." Aside from the constitutional feature, it was felt unwise for parliament to invade such a field.

Establishment of boards "these instances would be entirely foreign to dominion jurisdiction under the British North America Act, the committee considered. The power of such boards to secure witnesses, or resist interference or deal with parties who refused to testify was doubtful.

Committee members had not taken the view the constitutional danger alone was sufficient to warrant proceeding no further with the bill. "We considered on its merits it was an unwise and unnecessary measure." The present act gave ample provisions where there was reason for the labor minister exerting his efforts towards conciliation.

Loans To Provinces

Money Is Advanced For Unemployment And Drouth Relief

Ottawa.—Loans of \$500,000 to Saskatchewan and \$215,000 to Manitoba were announced at the office of Finance Minister E. N. Rhodes for unemployment and drouth relief.

Advance of \$500,000 to Saskatchewan was made on recommendation of the Dominion government's representative in that province who will countersign all cheques used in its disbursements. It is for drouth relief.

The \$215,000 to Manitoba is a further loan to enable that province to meet its share of relief costs. Both loans are secured by the usual provincial treasury bills bearing interest at 4½ per cent. until July 1, 1935, and thereafter at four per cent.

Prepare For Inflation

Roger Babson Says United States Should Expect It To Come

Boston.—Roger W. Babson, widely-known statistician, warned United States business men to prepare for inflation.

"Quit worrying, forget Washington. Prepare for inflation," he said in a speech prepared for delivery at a Boston chamber of commerce luncheon.

"Inflation of some kind surely is coming," he said.

A NEW BRITISH MOVEMENT FOR CAUSE OF PEACE

London.—A non-partisan movement designed to secure adherence of candidates of all political parties at the forthcoming general elections to the cause of peace and reconstruction was launched here.

A council of action, formed from the ranks of religious, social and political organizations, and supported by noted figures including David Lloyd George, Viscount Snowden and Sir Basil Blackett, a director of the Bank of England, made its plans known in a manifesto. Signed by 33 prominent men and women who form the provisional committee, the manifesto invited all organizations sympathetic to the new movement to send delegates to a two-day convention to be held in London in July, at which a nation-wide campaign will be launched.

The manifesto stressed the objective of the council of action was not a negative one of opposition to the government, nor was it intended to support either of the opposition parties. Its aim would be to secure the support of candidates in all parties so that in the next House of Commons a considerable section would favor "bold reconstructions both in the foreign and domestic fields."

PIERRE LAVAL

With a nation-wide investigation of the wave of speculation that threatened the stability of the franc already under way, the government of Laval has begun its task of dealing with France's financial crisis.

Chaco War Ended

Peace Protocol Between Two Nations Is Signed

Buenos Aires.—War between Bolivia and Paraguay in the Gran Chaco jungle district was ended, with the signing of the peace protocol between the two nations.

The protocol was formally signed by the two countries' foreign ministers in the presence of delegates from Argentina, Brazil, Chile, Peru, Uruguay, and the United States to the conference here for mediation.

A neutral military commission will go at once to the front and interview the commanders on both sides, establishing the exact positions occupied by their respective forces at the signing of the armistice. Though the protocol provided firing must end within 48 hours, it was reported both countries' capitals already had sent "cease-firing" orders to their troops.

To arrive as soon as possible in the jungle area between the Ilo-mayo and Paraguay rivers, where 100,000 Paraguayan and Bolivian soldiers have died in the three-year warfare, the commission will travel by plane.

Gets Curtain Call

Grace Moore Scores A Sensation In London

London.—Gloria Moore scored a sensation as Mimi in La Boheme before Queen Mary and a glittering audience of London's society.

She took 15 curtain calls after the final act, which was believed a modern record for historic Covent Garden house.

The queen started to leave after the second curtain call but came back and applauded the United States singer for the third time. As Miss Moore curtained low, the queen bowed and smiled at her.

AUSTRALIAN EXPLORER SAILS FOR HOLIDAY

This happy informal photograph shows Sir Hubert Wilkins, famous Australian explorer, and his wife, aboard a liner bound for the continent. The Polar explorer and Lady Wilkins are off on a holiday jaunt through European capitals.

Anglo-German Naval Agreement Said To Have Been Reached

To Unite Family

Dr. Dafeo Predicts Quintuplets Will Be Returned Home Within Few Years

Atlantic City, N.J.—To several hundred wives of Canadian and American Medical Association physicians who expressed particular interest in the mother of the Dionne quintuplets, Dr. Allan Roy Dafeo predicted early reunion with their mother, and union of the entire family "in three or four years."

To newspapermen who questioned him afterward Dr. Dafeo said: "There is no definite plan, but this is the hope."

Dr. Dafeo spoke at a women's luncheon and offered to answer questions.

"How will the influence of the mother be supplied in raising the quintuplets?" one of the women asked.

"Mrs. Dionne," Dr. Dafeo replied, "is permitted to see the quintuplets whenever she wishes. She may wash them and do other things."

"It is our hope as soon as possible to have their mother care for them, and in three or four years to have all 10 children together and the family under one roof."

Dr. Dafeo's speech was to recite the daily routine of the quintuplets.

Show Big Decrease

Bureau Of Statistics Issues Figures On Wheat Storage

Ottawa.—Canadian wheat in store for the week ended June 7 amounted to 200,355,758 bushels, a decrease of 1,189,638 bushels compared with the previous week, and a decrease of 10,285 bushels against the same week last year, the Dominion bureau of statistics reported.

Canadian wheat in the United States amounted to 9,903,216 bushels, an increase of 232,613 bushels over the previous week, and an increase of 2,989,339 bushels against the corresponding week last year.

United States wheat in Canada was shown as 200,294 bushels for the week ended June 7, compared with two bushels on the same date last year.

Wheat in transit on the lakes was reported as 3,100,258 bushels, compared with 1,483,997 bushels for the preceding week.

New Minister Arrives

New York.—Salomon A. Kato, newly appointed Japanese minister to Canada, and his wife, arrived in New York aboard the liner Majestic. Mr. and Mrs. Kato proceeded to Ottawa by train. The new envoy from Japan for a number of years has been in his country's consular service at London and previous to that at Washington.

London.—An Anglo-German agreement establishing the relative strengths of their navies was almost ready to be signed and observers here hailed it as an important step toward European peace.

Joachim Von Ribbentrop, Adolf Hitler's arms envoy extraordinary, brought back to London Reichs-zeuber Hitler's affirmative reply to all of Britain's conditions for the agreement. Terms of the pact were quickly decided.

Authoritative quarters said it will involve:

1. Germany's pledge to limit her navy to 35 per cent. of Britain's tonnage.

2. Germany's acceptance of limitation by categories of ships, as well as by total tonnage.

3. A release clause to protect Germany if other powers launch unrestricted construction of smaller warships and submarines.

Anti-Aircraft Defence

Battalions To Be Created To Guard London

London.—The war office, in a surprise announcement, stated eight battalions will be created immediately to form an anti-aircraft defence force.

The announcement said five units will be transformed into searchlight battalions and the other three, including the famed Royal Fusiliers, will become anti-aircraft brigades of Royal Artillery.

Making what the Herald described as "this grave announcement," the war office stressed the necessity the new force be "ready for action immediately on the outbreak of war or even earlier."

The new units, it was understood, will operate on a war-time basis. Only the London area is provided for in this new step.

Should Use Franchise

Agnes McPhail Urges Women To Enter Politics

Toronto.—Miss Agnes Macphail challenged the National Council of Women, addressing the council's annual meeting here, to use their franchise and what privileges they possessed.

"How long am I to be the only woman member of the House of Commons?" she asked. "It is time, if the women really care about the franchise, that they got into the work. You can get into the House of Commons when you're a friend of the people of any constituency if you want to."

"It is time the women took their courage in their hands and did the job and cared nothing about what anyone thinks," Miss Macphail said who had been the only woman member of the commons for 13 years.

Wheat Situation Is Called The Greatest Problem Of Canada

Ottawa.—Prime Minister R. B. Bennett called the wheat situation Canada's greatest problem when, in the House, he moved second reading of his Grain Bill.

Although not the world's largest producers, Canada is the largest exporter and the size and quality of the crop has a great effect on Canada's crop, Mr. Bennett explained.

There was no section of the country affected by wheat prices, drought, windstorms and fair weather on the prairies. Because of that, Canada was more interested than any other in a moderate price for wheat, he added.

In the last crop year, of every 100 bushels of wheat that went on the world market, Canada shipped 35; Australia 20; Argentina 20; United States 10; Russia eight and the Balkan countries seven. Because of that, Canada owed a duty not only to its own farmers but to all countries that a fair price was reached.

The prime minister defied Liberal members to oppose the government wheat operations. He suggested their "aneering observations be directed to the people of the west" who realized they were saved from bankruptcy. Once again he defied Liberal members to oppose the wheat operations.

NOTES AND COMMENTS

POLITICAL PREVARICATORS COOTE'S BILL TO LIMIT INTEREST REPORTED

There exists a certain type of politician—all parties suffer from the same blight in greater or less degree—who believe that the cause they profess to love can best be served by misrepresentation. No tale is too tall, no fable too feeble for them to spread, providing always that its aim is to show up the other fellow in an unfavorable light. They spread whispering campaigns, distort figures, ignore known facts, and then pat themselves between the shoulder blades as fine fellows and astute campaigners. They are neither. Rather they are plain, everyday liars; and all liars are stupid.

The Bennett government has had to put up with a lot of this sort of thing. Goodness knows, the past five years have been difficult enough, without the added handicap of the misrepresentation which has persisted in some quarters, especially during the past few months, when business generally has been steadily on the up grade, when other nations of the world have been generous in their praise of Canada as leading the way out of the depression. There have been repeated and persistent efforts to deny and belittle the real progress made, in the face of all the positive evidence everywhere available.

Whatever certain political nitwits may say about Canadian banks, no one can deny their efficiency when it comes to the collection and analysis of trade trends and reports. They cannot afford to be wrong on a subject so vital to their own existence. For that reason the latest monthly report of the Royal Bank of Canada is of particular interest and encouraging interest at this time. It shows that Canadian exports last year, made a greater gain in value than those of any other country in the world except the Malay States, an insignificant exception. In each month but one since May, 1933, Canada export figures have exceeded those of the corresponding month in the previous year. Between 1933 and 1934 sales of Canadian-made goods to British Empire countries have increased by \$119,000,000—a gain of over one hundred per cent, because of the Ottawa Agreement. And the political prevaricators are spreading the false doctrine that the Ottawa Agreements brought no good to Canada, are even calling for their abrogation!—C. H. Q.

IMPORTANCE OF NEWSPAPER
It is stated that the Quebec government, seized of the importance of weekly newspaper in their steady influence on rural communities, have under advisement a policy to subsidize them without discrimination of party affiliations. Communities often do not realize what a vital factor the weekly has been in keeping alive the local spirit until it has passed out. The village or town where a publication ceased to exist soon passes into the limbo of oblivion.—Exchange.

OUR TOWN TALKS
Many people in Coleman have evidently discovered that "life is more than meat." Food, clothes and a roof over the head have forced the attention of people everywhere during the past few years. However, library records prove that these things have not been enough.
Looking at some of the houses and lawns in Coleman also causes us to realize that things useful to the body are not enough. Life is ministered to by a new coat of paint, an added flower garden or a bit of decorative shrubbery.
In some cities a great deal is done at the Christmas season in the way of having lighted Christmas trees on porches and lawns. Awards are often made for the most attractive arrangements. Possibly there is an idea in this which can be adapted to the summer-time yard beautification in Coleman.

On Monday evening the town band jauntily marched down the street playing that famous old march so reminiscent of war days, "Colonel Bogey." There is something about that well-known march which set the blood tingling and makes you want to march again to its lively rhythm. As soon as you hear the opening bars blare out, up goes the old soldiers' ears, taking their minds back to Salisbury Plain, Flanders, plum and apple jam, run and mud.
According to the Dominion Bureau of Statistics activity in common stocks reached the highest peak of the current year during May.

OTTAWA, June 12.—George Coote's bill to make it illegal to collect more than six per cent on any mortgage, rural or urban, contracted prior to January 1st, 1935, was reported by the Banking and Commerce Committee Tuesday. As originally drafted by Mr. Coote the limit would have been four per cent and would have applied to future as well as past mortgages. Even as amended by the committee, however, it will provide relief for a large number of mortgaged persons. The bill must now pass third reading before going to the Senate. The existing amendment to the Farm Loan Act provides only for the breaking of a contract bearing over seven per cent, and that only if principal, accrued interest and a small bonus are offered.

Rockwood Corporation Canada Limited has decided to erect a new plant at St. David's, Ont., to manufacture insulating material from rock. The plant will be at Toronto.

Tide Water Oil Company of Canada has announced a five per cent increase in salaries and wages. Toronto is the locale of the firm.

Walker Salt Corporation Limited is now operating with a new plant of 40 tons daily capacity, reviving a local industry that has been dormant for 40 years. The plant is at Pork Plains, Ont.

Chromium Mining and Smelting Corporation Limited is establishing a refinery at Sault Ste. Marie and will employ about fifty men.

A new planning mill and woodworking plant, recently erected by A. F. Campbell and Son, is now in production at Armiprior.

Fairchild Aircraft Limited of Montreal is planning a branch factory at Vancouver.

A wage increase of five per cent has been announced by E. B. Edly Company Limited, Hull, Que., to about 600 employees.

SENTENCE STIMULANTS
When worried about a place to park, think of Noah—he finally made a happy landing.

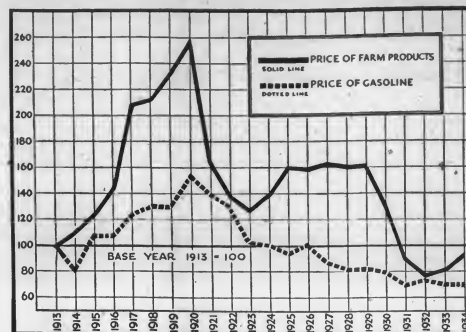

It may be tough on the canary to be caged. But it's good for the humans who listen to note that the bird sings despite his limitations.

Time is slow, swift, long or short. The difference is whether you are waiting, fearful, grieving or rejoicing. For those who love it is just the great eternal now.

Sorrow and pain are a part of most lives. We may not avoid them but there are ways of building up a reserve of strength to meet them just as there are thrifty ways of saving for rainy days—even on small incomes.

Take a full measure of thoughtfulness, add a generous portion of kindness, a dash of praise and a sprinkling of cheerfulness. Mix these ingredients with faith and courage and you have a pretty good recipe for Happy Days.

The Lord's Prayer is said in many languages and dialects. It can't be the words that are heard. The important thing must be the petitioner's attitude of mind. There are small and large services to be performed in this world—drum beating and trumpet sounding. The important thing must be the spirit in which each is rendered.

The depressed price of farm products is a problem with which everyone is familiar, but on the 1913 basis farm product prices have never been as low as gasoline. Between 1913 and 1920 gasoline did not rise in price to nearly the same extent as farm products, yet since 1920 its price has almost continuously declined. The data for the above graph are based on figures published by the Dominion Bureau of Statistics.

A DYING WAGE

WHEN we started business in 1880 our first rule was to pay a fair living wage.

In 1919 we decided a living wage was not enough. We should pay a dying wage, too. We knew how hard it is for the worker to make provision for his old age and for his dependents in the event of his death.

So we introduced benefits and pensions plans. Sickness benefits—the incapacitated employee to continue drawing pay according to his term of service; pensions—a fair living allowance for the worker who

reaches old age; death benefits—a cheque immediately for the deceased worker's family. These things lifted a burden of care from our employees' shoulders—made them happier, more enterprising and more efficient. They lifted a burden from the shoulders of the Canadian taxpayer, too.

We are proud of these plans which have helped so much to build up a loyal organization of thousands of Canadian workers. Their devotion to their work has made it possible for us to serve Canada with quality products at lower and lower prices.

Charlie Graham of Lacombe is visiting his father, Mr. Frank G. Graham this week.

Miss Jessie Gardiner, of Seattle is the guest of Mrs. M. Wilson for a few weeks.

Francis Williams of Calgary is the guest of Mr. and Mrs. H. Dunlop.

Mr. and Mrs. Wm. Fraser motored to Lethbridge on Sunday.

Miss Belle Godfrey returned Sunday after completing her course at Calgary Normal school.

Miss Myrtle Johnstone, student at Calgary Normal school, returned to her home to spend the summer holidays.

Miss Helen Dunlop of Calgary motored to Coleman on Friday to visit her sister, Miss Bessie Dunlop.

Violet Wilson returned from Victoria, B. C., on Tuesday, where she has been since October.

Permanents of Cabinet Beauty Parlor by Miss Gillette, highly experienced operator, will give satisfaction. Make appointments by phoning 42.

Miss Margaret Surtees and her sister, Miss M. E. Surtees, nurse in Drumheller hospital, are spending a vacation at Clarence, Ont.

All ex-service men are invited to the social evening, to be held under the auspices of the Canadian Legion, Coleman branch, on Friday, June 21, in the I. O. O. F. hall at 7.30 p. m.

E. D. Battum, secretary of Alberta Amateur Baseball Association, states that the last date for entering local clubs in any section of the Alberta baseball championships this year is Monday, July 1.

D. B. Fraser of Edmonton was here for a visit at the home of his sister, Mrs. Frank H. Graham. He was accompanied from the city by Mrs. J. O. C. McDonald, who had been visiting her daughter, Mrs. W. Whittaker.

Earl Price in April sustained an injury to one of his legs while employed in McGillivray mine. Trouble developed and following an operation in the local hospital, he was removed to the Royal Alexandra hospital in Edmonton. His sister Margaret has been attending him there as special nurse, and last week-end his mother went to the city. It is feared amputation of the injured leg may be necessary.

ANNOUNCEMENT

The Ladies Auxiliary of St. Paul's United Church are holding a strawberry tea and a pantry and candy table in the church club room, Saturday, June 23, from 3 to 6 o'clock.

ANNOUNCEMENT

"Bill's Tog Shop" in the Italian Society block has been improved by the addition of new fixtures and the store interior has been attractively redecorated. With bright window display and stylish men's wear it has the appearance of the larger city stores.

WANTED—Woman for office cleaning. Apply Telephone No. 6, or Journal office.

Do you remember that business headache you had a year ago? If so, you probably also recall that you found a way to relieve it. Do you remember that crushing blow you received? If it didn't drive you up a side road to something better, you have at least learned how to live with the scar. Do you remember that whole mess of "Might Happens" that clogged your mind and kept it engaged when it should have been working on something within reach of your ability and strength? They probably never happened.

Strong Loyalty may be expressed in doing all possible business in one's home town so that business and professional people may have a chance to earn more with which to do more for their towns. Folks who are busy planning ways of developing the usefulness of themselves and their business haven't time to knock or speak ill of anyone.

MISCELLANEOUS

Out put of Prince Edward Island fisheries in 1934 had a value of \$963,926, compared with \$942,345 in 1933. These totals represent the value of the fish as marketed, whether sold for consumption or canned, cured, or otherwise prepared.

Men of Coleman

There are men in Coleman who know that "he who does not mind his own business soon gets to the place where he has no business to mind." These men see the good in others and let someone else wear around in a sour search for human faults.

These men are not rasping their tonals raw yelling about what the world owes them; nor whining to have happiness served to them on a golden platter.

If the faults of others are forced upon their attention these men find some excuse for the frailties. However, they hold themselves to a strict standard of living.

CLASSIFIED ADVERTISEMENTS

FOR SALE—Tenor banjo, as good as new, will sell at half price. Apply A. McIntosh or Journal office.

TO WHOM IT MAY CONCERN:

Take notice that from this date I will not be responsible for any debts incurred by my wife—John Cytko, Coleman, Alta., June 14, 1935.

Here and There

Two or three times as much rainfall this year as in April 1 and May 8 on the Prairies as compared with the same period last year makes the outlook for the 1935 harvest similar to that at the same time of year in 1932 when the largest crop since 1928 was recorded, states T. S. Acheson, general agricultural agent of the Canadian Pacific Railway in the West.

Leonard J. Pohlmann, travelling passenger agent, Canadian Pacific Railway, with headquarters at New York was recently elected vice-president of the American Association of Traveling Passenger Agents in New York. Mr. Pohlmann has been a member of the association's executive committee for the past year.

Hotel Saskatchewan, Regina, distinguished itself recently by staging a Chinese Mandarin dinner dance, said to be the first of its kind on this continent. As stage decoration there was used a hundred-foot running side drape, hand-made by Chinese many decades ago, and insured while in use at a valuation of \$6,000. The orchestra was in Chinese dress and provided music with a decidedly Eastern background.

T. J. Jackson, who has just been appointed first assistant manager of the Royal York Hotel, Toronto, in succession to Cyril Chapman, promoted to the post of manager of the Belmington Club of Quebec, started as cashier at the Chateau Frontenac in 1924, and has had rapid advancement to his present high position.

To Charles Montgomery, one-time switch-tender and present elevator operator at the Canadian Pacific uptown office building in Winnipeg, go all honors for having constructed what is probably the most perfectly finished model of a locomotive on the continent. It is a five-foot replica of a Canadian Pacific class 2200, finished in brass, and copper and took five years to construct.

Out of active service for some years past, Canadian Pacific liner Melita has been sold to Italian shipbuilders. She was built in Glasgow in 1918.

"Never betray a trust; be honest; do what other men can do; and work your eight hours a day" is the recipe for success enunciated by Caleb R. Smith, international chairman of the Million-Dollar Round Table, speaking to the Life Underwriters in convention at the Royal York Hotel, Toronto, recently.

James G. Miller, Medicine Hat, veteran Canadian Pacific engineer, recently celebrated his 60th birthday, when railway acquaintances and relatives gathered to congratulate him. He was born in Drummondville, Que., and has been drawing a railroad cheque for more than 44 years.

A couple of scores of the old railroaders who decades ago helped push the steel around the north shore of Lake Superior for the Canadian Pacific Railway, gathered near Jackfish, Ont., recently, to re-enact the driving of the last spike at Nels on May 16, 1885. Alex. Anderson, Port Arthur, who held the spike when it was driven fifty years ago, drove home a new gilded spike with a vigor that belied his 81 years.

Good Time Was Had By All At Carnival

Rink Committee and Hockey Club
Accorded Good Support in
Raising Funds

On Tuesday morning following the closing of the two days carnival, there were a number of young men with very hoarse voices who had used their energy and persuasive powers inducing people to take a chance on anything from "house-houses" to auto rugs, bedsprings, lamps, dolls and other novelties. Saturday night there was a very good attendance despite the rain, and the committee were well pleased with the receipts. On Monday there was a dropping off in attendance, yet the receipts were very good.

Interest centred in the prize drawings. On Saturday night the silver service was won by R. Rinaldi, of Blairmore, and the handsome bedroom suite drawn for on Monday night was won by Miss Kathleen Milley, a public school teacher, and the result was very popular.

A jittery dance with the Arcadians attracted plenty of action for the young people, and the older hands were kept busy at the booths enticing the nimble quarters to take a chance on the wheels. Hot dog stands furnished refreshments of very pleasing quality, and everyone appeared to enjoy a nice, friendly time. The carnival was staged by the rink committee and the hockey club, and the executive appreciate the co-operation extended by all who assisted.

CRESCENT SHOWS HERE

Crescent Shows arrived on Tuesday morning for a five days stay, from Tuesday till Saturday. The shows spent a few days here last year, and gained in popularity. This year several additions have been made to the attractions, and the train which brought them in contained several baggage cars and a passenger coach. Children particularly will be attracted by the merry-go-round, Ferris wheel, mix-up and Loop-o-plane, to say nothing of the various interesting side-shows. Crescent shows are cleanly operated and many from the Pass towns will come to enjoy themselves. Special low prices are allowed for the children on the various rides.

RENEWS HIS SUBSCRIPTION

Alex. Fyfe, for many years a subscriber to The Journal, called in this week to renew his subscription. A year or two ago he and Mrs. Fyfe visited their old home in Scotland, spending a pleasant time there. Mr. Fyfe had worked for the International Coal Co. Since returning he has lived in West Coleman, and The Journal trusts he and Mrs. Fyfe will enjoy their years of leisure in this mountain town. Mrs. D. C. Robert and Mrs. George Ford are daughters of Mr. and Mrs. Fyfe.

FATHER OF MRS. WHITESIDE

The death took place recently at Sarnia, Ont., of John A. Clavis, father of Mrs. O. E. S. Whiteside, formerly of Coleman. He was a native of Elgin county and was 88 years of age.—Lethbridge Herald.

PINCHER CREEK CELEBRATION

The attractive and hospitable town of Pincher Creek, centre of interesting early history and reminiscences of Alberta, invites people from the Pass towns to join in their July 1 celebration. In placing a display advert in The Journal, the secretary states: "We are hoping to make this a friendly meet between the neighboring towns and districts." J

ANNOUNCEMENT

Rumored Cruickshank Will Stand for Re-Election

A radio message based on a telephone message from Blairmore through Calgary states that G. E. Cruickshank, M. L. A., will stand as an independent candidate for Rocky Mountain riding. The Conservatives of the district are meeting on Friday evening in Blairmore to discuss matters of importance, as several of the party have expressed their intention of not nominating a candidate.

In The Realm of Sport

KIMBERLEY TOO GOOD FOR THE COLEMAN ELEVEN

Coleman had their third defeat in three starts chalked against them on Saturday when they were shut out by the Kimberley team 4-0. Three new players have been signed on from the relief camp, one from Lethbridge and two from Corbin, but as yet the team has failed to break into the win column. Jim Anderson failed to get into action as a result of a fracas at Coal Creek on the previous Sunday, the result of which was a one-game suspension which took place Saturday. Kimberley meant business from the start and it wasn't long till they went into the lead, through Brown. Other goals by Brown and Forsythe gave Kimberley a 3-0 lead at the end of the first half.

Coleman managed to hold their own in the second half, Kimberley being only able to add one more goal to their total, the final score being 4-0. Coleman—Ford, Griffiths, Joyce, Hastings Watson, W. Fraser, Anderson, Moore, Ball, Hume, McCondlie.

TENNIS NOTES

Rain intervened with the inter-club tournament which was to have been held in Fernie last Sunday, when Coleman were to have been the guests of the Fernie club. A number of the Fernie players are expected to compete in the forthcoming tournament at the local courts, June 30 and July 1. Harry Kinloch, of Edmonton, Alberta's No. 1 ranking player, was in Coleman this week visiting Wm. Ball. Kinloch has been Alberta's leading player for a number of years and shows no signs of relinquishing his title.

INLAND PETROLEUM ANNUAL MEETING

Inland Petroleum, Limited, with head office in Coleman, recently held the annual meeting of directors and shareholders, when the directors were re-elected for the ensuing year. The annual report, balance sheet and profit and loss statement was submitted by A. M. Denmore, secretary, A. M. Morrison, president, acting as chairman of the meeting. Production in the original wells of the company is being maintained, and the company has also invested part of its capital in a well in Turner Valley, which gives promise of being successful.

Shareholders were present from the various Pass towns, who approved of the actions of the directors during the past year. The company was organized about five years ago and financed by various businessmen throughout the Pass, also a number of businessmen at Natal, Michel and Fernie.

The company has also acquired some protection leases north of Lundbreck. Its other properties include an interest in the Union Freehold, Turner Valley, and wells in Montana, in the Red Coulee field.

The directorate includes A. M. Morrison, A. M. Denmore, F. M. Thompson, G. E. Cruickshank, M. L. A., George Fisher of Natal, T. H. Cox and E. K. Stewart, Fernie, A. F. Short was re-appointed auditor.

Miss Eileen Apponen, accompanied by her sister, Mrs. Norman Shaw and children returned from Creston on Wednesday.
